

The Brune Humidifier Controller is designed to work with the smaller B120 and B125 models as these are the only models in the range which do not come with their own humidistat.

The controller works on the traditional dial method and is has good accuracy to +/- 3% rh.

Please note that this model is designed for equipment fitted with European two pin plugs and for the control of equipment with standard UK three pin plugs our LEA controller should be used.

Technical data:

Dimensions (WxHxD)	85mm x 55mm x 36mm
Cable length	3m
Measurement Range	30% to 100% rh
Measurement Accuracy	+/- 3% rh
Operating Range	35% to 100% rh
Hysteresis	4% @50% rh
Switching capacity	max. load 2A
