

DEHUMIDIFIERS

In 2005 Mitsubishi Electric launched the MJE16V range of dehumidifiers. It has proved to be a huge success, popular with users and ourselves alike. The machines are well built, have the lowest failure rate in the industry and are full of well thought out features.

The range starts with the MJE16V-E1 model. While its big brother the MJE16VX is the best dehumidifier in our range and arguably the best portable dehumidifier on the U.K. market.

Mitsubishi dehumidifiers have always been popular with museums and the current range continues that association. The hot gas defrost function is perfect for use in unheated stores and the machine is easy to move and handle.

TECHNICAL DATA

MJ-E16V

MJ-E16VX

	MJ-E16V	MJ-E16VX
HUMIDISTAT	Set at 55%*	Variable
MOISTURE REMOVAL AT 30° C, 80%RH Litre/day	16	16
AUTO SWING LOUVRE (Swing change)	No	Yes
COLOUR	White & Light Grey	White & Blue
OPERATING TEMPERATURE °C	1 to 35	1 to 35
LCD DISPLAY	No	Yes
AUTO STOP LAUNDRY MODE (12 hr)	No	Yes
WATER CONTAINER CAPACITY (Litre)	4	4
CONTINUOUS DRAINAGE FACILITY	Yes	Yes
POWER CONSUMPTION W	275	275
REFRIGERANT	HFC-134a	HFC-134a
HOT GAS DEFROST	Yes	Yes
AIR PURIFIER FUNCTION	Yes	Yes
DEODORANT FILTER (Anti bacterial)	No	Yes
MILDEW GUARD	No	Yes
TIMER	Off	On/Off
CHILD LOCK	No	Yes
DIMENSIONS (H x W x D) mm	570 x 384 x 183	570 x 384 x 183
WEIGHT Kg	11.7	11.7

* variable control can be achieved with use of a Meaco controller. Please ask for details
