

THERMOHYGROMETER HK100

The HK100 is a budget thermohygrometer that comes with a range of features.

Both temperature and humidity readings are displayed simultaneously on the clear LCD display.

The unit also automatically stores minimum and maximum readings from the last time it was re-set and these can be viewed quickly with a press of a button.

For those who prefer to use more traditional units of measurement the HK100 can also display readings in °F instead of °C.

All in all the HK100 is a very cost effective and simple method of monitoring.

Technical data:

Measuring Range	
Temperature	0...+50°C
Humidity	25...95 %rh
Accuracy	
Temperature	± 1°C (0...+40°C)
Humidity	± 5 %rh (40...80%rh, 0...50°C)
Battery	2 x AAA
Dimensions (H x W x D)	98mm x 66mm x 15mm
Weight	79g
