

HK55mini

thermohygrometer

The HK55-mini offers a discreet yet practical solution to display case monitoring.

At only 2 inches long and in a subtle black and grey enclosure the HK55 can be used where the larger and more traditional thermo hygrometers would intrude on the aesthetics of the display.

The numerals are clear to read and there is even a min/max facility for when access is possible.

The HK55 is proof that good things do indeed come in small packages and at a very affordable price.

Technical data:

Measuring Range	
Temperature	-10...+60°C
Humidity	10...99 %rh
Accuracy	
Temperature	± 1°C (-10...+50°C)
Humidity	± 5 %rh (25...75 %rh, 0...50°C)
Battery	1 x LR44 or AG13 button cell
Dimensions (H x W x D)	37mm x 52mm x 15mm
Weight	20g
