

Light METERS

ELSEC 7640 lux/uv meter

- Ultra Violet (UV) level
- Visible Light (Lux or Foot-candles)
- Sized like a small mobile phone
- Easy one handed operation
- Large, easy to read display
- Maximum & minimum

Using the 7640, measurements can be taken of the proportion of UV present (mW/lumen), the total amount of UV (mW/M²) and the amount of visible light present as Lux or Foot-candles. Much trouble has been taken to make the 7640 as easy to use as possible. Anyone can take measurements straight out of the box with little, if any, reference to the instruction manual.

TES1335 light meter

- Bar-graph display
- Light level range 0...400,000 Lux
- Selectable units lux/fc (foot candles)
- Peak hold function
- Max/Min indication
- Auto power off function

Precise Digital Lux meter with wide measuring range and bar-graph display! Excellent value for money in this easy to read light meter which even comes with its own carrying case.

Testo 545 light meter with logging facility

- Measuring range 0... +100,000 Lux
- Quick documentation on location with Testo printer
- Logger function (3000 readings)
- Up to 99 file locations can be selected
- Multi-point or timed mean calculation

Not just a datalogger - this handheld light meter has a location management facility that can store upto 3000 readings and upto 99 locations. The data can then be downloaded to the ComSoft data management software and saved in a graphical format. Accessories include TopSafe case for safe storage and a portable printer for producing on site hard copy readings.

540 Pocketline

- Light Level range 0...99,999 Lux
- Selectable units lux/fc
- Min/Max function
- Hold button
- Comes with protective cover and case

Part of the fabulous Pocketline range the 540 is an excellent value light meter with built in sensor.

The sensor of the 540 is adapted to the spectral sensitivity of the eye which makes it ideal for the measurement of light intensity. The Hold function allows an easy readout of the measurement values. Max. and min. values are displayed at the press of a button. The 540 is very handy, small and easy to operate.
